DigitAll Watermark

The new Samsung SVR-1620: Security beyond a shadow of a doubt.

Digital watermarking is highly valued as the best way to assure evidence credibility in CCTV surveillance. Maybe that's why there is so much excitement about our new digital video recorder that delivers the "guilty-beyond-a-shadow-of-a-doubt" record of events with the rock-solid reliability and stability of Samsung's embedded recording technology.

- 16 Channel Digital Video Recorder
- Simultaneous recording, playback, and backup
- 480 fps live, 30 fps recorded
- Expandable Memory up to 4.5 Terabytes
- POS and ATM interface capabilities
- Digital Watermarking
- Removable CD Writer

To learn more, visit www.samsungcctv-info.com or call **1-800-762-7746 x181** for additional information.

The standalone SVR-1620 is clearly superior to existing PC-based types in terms of stability and functionality and at a surprisingly low price.

Case Closed: Stylish flip-down cover conceals and protects less-used buttons and backup hard drive loading bay, while leaving most frequently used controls exposed.
